MANAGEMENT DISCUSSION & ANALYSIS

Global Textile Scenario

The global trade in textile and apparel is expected to reach US\$805 billion by 2015 from US\$480 billion in 2005, which is a CAGR of 5.3%. While the world textile and apparel trade map will not change dramatically, countries like Vietnam, Cambodia and Burma are expected to emerge as apparel suppliers. China, Bangladesh and India are expected to maintain their prominent roles in the textile and clothing industry over the next few years

Sluggish economic conditions and changing demographics of the US and the EU are adversely impacting the exports of countries supplying to them, such as China and India. On the other hand, domestic markets in China and India are providing new avenues of growth for textile and apparel companies from these countries.

Indian Textiles

The Indian Textile industry remains one of the largest and most significant industries in the Indian economy – it constitutes 4% of India's GDP, 14% of industrial production and approximately 17% of India's foreign exchange earnings. The sector is also a leading employment generator and it is estimated that it provides jobs to over 100 million people, either directly or indirectly.

India's cotton textile exports grew by 10% in value between April 2012 and March 2013 (though this was mainly due to the depreciating rupee). India's textile industry has the potential to grow exports to US\$80 billion and domestic trade to US\$140 billion by the end of this decade. Every major global retailer, including the likes of H&M, Zara, Wal Mart, JC Penney, Gap and Marks & Spencer, sources from India.

Despite the diversification of exports to newer geographies, the growth of Indian exports was subdued in this fiscal year. This was due to the bleak outlook for Europe in particular and the rest of the world in general. Slow pick-up in demand and lack of competitiveness has taken a heavy toll on exports. However, exports to non-traditional markets have shown an upward trend, though these will take several years to reach the volumes currently exported to the US and the EU.

Impact of FY14 Budget

The Indian textile industry had expectations from the FY14 union budget to regain its global competitiveness, which is facing a tough challenge due to volatility in cotton prices, an erratic power supply and sluggish market conditions. The budget did come up with benefits for the textile & apparel industry, though the interventions are not as strong as they could have been. Nevertheless, the tone of the proposals is positive, conveying the message that the government is seriously working towards providing support to the industry in its quest for growth.

Some important features of the budget are:

- Zero Excise duty on cotton textiles at fibre, yarn and garment stage
- Continuation of the Technology Upgradation Fund scheme
- Reduction in the base custom duty for imported textile machinery and parts from 7.5% to 5%
- Extending the optional route for central excise duty for the fibre-to-finished-goods value chain

It is hoped that these policies provide a platform for the modernisation and expansion plans that textile and apparel companies undertake so that India can meet its domestic and export targets.

Morarjee Textiles

Morarjee Textiles once again grew profit in FY13 due to a continued focus on quality and value. As it has for the past few years, the company once again beat its previous year's performance.

On standalone basis, Morarjee Textiles ended the year with a profit of ₹ 23.94 crore as against ₹ 3.11 crore in FY12. Total revenue increased by 25%, from ₹ 290.77 crore to ₹ 364.12 crore. EBIDTA stood at ₹ 65.36 crore as against ₹ 43.96 crore in FY12. EBIDTA margin increased from 15% last year to 18% in FY12, mainly due to investments in modern machinery, improved

operational efficiencies, savings in power and water cost and a strong focus on profitable products and customers.

On a consolidated basis, the year ended with a profit of ₹ 23.91 crore against a loss of ₹ 59 lakh (after Extraordinary Items) in FY12. Total revenue increased by 16% from ₹ 313.18 crore to ₹ 364.20 crore.

As a part of strategy to spread market risk, new territories and customers were added in both domestic and non-traditional international markets. The company also augmented its product basket with the production of linen, viscose and cotton-viscose.

With the acquisition of clients like H&M, S. Oliver, A&F, Triburg, Orient Craft, Next and Kohls, the average order size has gone up, leading to cost and lead time reduction.

Morarjee's culture of world-class quality is inculcated in every employee through continuous training, Lean Six Sigma projects and Quality Circles. The Company has trained 20 employees in Lean Six Sigma practice, including 2 who have Black Belt status. Employee interactions with top management are held at regular intervals through town hall meets, offsite meets and the annual day function.

Operational excellence continued to be a theme at the company. During the year, the company increased dyeing production by 40%, thereby reducing dyeing cost by 11%. A new printing machine and new looms were also commissioned at the beginning of the year.

Morarjee is a company that takes its commitment to the environment very seriously. During FY13, we reduced our carbon emissions by 19% compared to the previous year due to operational efficiencies, power saving measures, reduction of 8% in fuel consumption and investment in energy efficient devices and lighting.

Outlook

The organised textile sector made a slight recovery in FY13 compared to the previous year, riding on the strength of stabilising cotton prices. There are several

expansion plans on the anvil in the next two years as industry players attempt to reach out to new markets and boost sales.

Global cotton textile exports are projected to grow by 9% this fiscal year despite the global slowdown. Yarn exports are expected to grow at 8%, fabrics at 9% and home textiles at 10%. India has the potential to increase its textile and apparel share in the world trade from current level of 4.5% to 8% and reach \$80 billion by 2020.

The outlook for Indian cotton textile exports, though in recovery mode, is still expected to remain sluggish. India's two major export destinations, the EU and the US, continue to experience sluggish consumer spending. Meanwhile, exports to non-traditional markets have risen by 4%.

Domestically, economic growth and increasing disposable income is expected to drive a healthy demand for textiles going forward.

Volatile commodity prices, fluctuating and increasingly expensive power supply and the uncertain currency exchange rate are key challenges for the industry.

Risk Management

Risks are inherent in all businesses. The challenge for the Company is to effectively and responsibly manage and control the risks on a sustained basis to enhance returns.

Industry Risk

The demand for textiles is perennial and major fluctuations occur largely due to changes in overall economic growth and manufacturing competitiveness.

However, the business is cyclical on the supply side considering the quantum of capital investment involved in capacity expansion. This makes it necessary for the Company to incur large capital expenditure at the right time. An error in estimation, can, therefore, affect its financial health.

Risk Mitigation

Morarjee has consistently invested funds in its manufacturing plants to bring them in line with the latest technology. During the year the company invested in 24 additional looms, warping and winding machines, a laser engraving machine, a coating machine and a two-for-one twister.

The prudent capital expenditure is reflected in the enhanced market presence due to higher production and improved quality at a lower cost of production

To strengthen its competitive position further, the company is poised to incur further capital expenditure, which will enhance capacity, quality and cost competitiveness.

Raw Material Risk

The company is exposed to the vagaries of nature, with cotton being the principal raw material for fabric manufacturing.

Risk Mitigation

The Company covers its cotton requirements well in advance through the domestic and international markets. The Company also seeks out alternative cotton varieties and blends to increase its raw material basket.

Energy Risk

Apart from raw materials, electrical & thermal energy supply is the most critical factor for fabric manufacturing. A stoppage in the supply of power and fuel can bring operations to a halt and undue increments in tariffs and fuel can affect margins.

Risk Mitigation

The Company's total energy input (electrical, coal and other fuels) for the financial year FY12 was 14,086 MTOE (Metric Ton Oil Equivalent). During the year the

Company invested in energy efficient equipment & took various energy saving initiatives which translated into declining energy consumption & reduction in cost of energy. The total energy input in FY13 was 13,959 MTOE (Metric Ton Oil Equivalent) even though increase in the production.

Product Substitution Risk

Man Made Fibres are a direct substitute for cotton textiles.

Risk Mitigation

The company specialises in producing the best quality cotton fabrics, which are at par with the highest global quality standards, and has created a niche positioning with products which cater to premium customers. The company also produces high-quality printed cotton fabric for the African market and enjoys a strong brand name and reputation, thereby reducing the chance of substitution.

Financial Snapshot

During the year, the total income of the company on a standalone basis was ₹ 36,412 lakh as against ₹ 29,077 lakh in the previous year, an increase of 25.23%. There was a strong increase of EBITDA margin to 17.95% against 15.12% in the previous year. This has boosted the bottom line more than seven-fold, with the company posting a PBT of ₹ 2,394 lakh against ₹ 311 lakh in the previous year.

INDEPENDENT AUDITORS' REPORT

To the Members of MORARJEE TEXTILES LIMITED

Report on the Financial Statements

We have audited the accompanying financial statements of MORARJEE TEXTILES LIMITED ("the Company"), which comprise the Balance Sheet as at 31st March, 2013, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers the internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Qualified Opinion

On the basis of inquiries made under sub-section (1A) of Section 227 of The Companies Act, 1956, the Company has not accrued interest income on unsecured loan given to Integra Garments and Textiles Limited (Previously known as Five Star Mercantile Limited) – a company within the same management, amounting to ₹ 422 lacs for the year ended on 31st March 2013. The said loan is recovered in full during the year. (Refer note no. 42 in the financial statements). As a result of the same, the profit for the year ended on 31st March 2013 is lower by ₹ 422 lacs.

Qualified Opinion

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with

the accounting principles generally accepted in India *except for non provision of interest income in the preceding paragraph*:

- (a) in the case of the Balance Sheet, of the state of affairs of the Company as at 31st March, 2013;
- (b) in the case of the Statement of Profit and Loss, of the profit of the Company for the year ended on that date; and
- (c) in the case of the Cash Flow Statement, of the cash flows of the Company for the year ended on that date.

Report on Other Legal and Regulatory Requirements

- 1. As required by the Companies (Auditor's Report) Order, 2003("the Order") issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.
- 2. As required by Section 227(3) of the Act, we report that:
 - (a) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, Statement of Profit and Loss and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the Balance Sheet, Statement of Profit and Loss and the Cash Flow Statement comply with the Accounting Standards referred to in sub-section (3C) of section 211 of the Act.
 - (e) On the basis of the written representations received from the directors as on 31st March, 2013 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2013 from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Act.

NOTES ON FINANCIAL STATEMENT FOR THE YEAR ENDED 31ST MARCH, 2013

NOTE 1: ACCOUNTING POLICIES

1. Basis of preparation of financial statement

(a) Basis of Accounting:

The financial statements have been prepared and presented under the historical cost convention on accrual basis of accounting to comply with the accounting standards prescribed in the Companies (Accounting Standards) Rules, 2006 and with the relevant provisions of the Companies Act, 1956.

(b) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles (GAAP) in India requires Management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent liabilities on the date of financial statements.

2. Fixed Assets

All the fixed assets are stated at historical cost. In respect of Assets acquired under new project/ expansion/ restructuring, interest cost on borrowings and other related expenses during trial runs and upto satisfactory commencement of commercial production have been capitalised to Plant & Machinery and any subsidy given for a specific asset is reduced from cost. The Accounting Standard -10 of the Institute of Chartered Accountants of India has been compiled with in this respect.

3. Depreciation

Depreciation has been provided net of reversal of excess provision if any on straight line method on all fixed assets except Leasehold land at the rates specified in Schedule XIV to the Companies Act, 1956. Premium on lease hold land is amortised over the period of lease. Intangible assets are amortised over their estimated useful life.

4. Lease Accounting

Lease rentals on assets taken on lease are recognized as expense in the statement of profit and loss account on an accrual basis over the lease term.

5. Inventory

- a) Raw materials, work in progress, finished goods, packing materials, stores, spares, traded goods and consumables are carried at the lower of cost and net realisable value. The comparison of cost and net realisable value is made on an item-by-item basis. Damaged, unserviceable and inert stocks are suitably depreciated.
- b) In determining cost of raw materials, packing materials, traded goods, stores, spares and consumables, weighted average cost method is used. Cost of inventory comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventory to their present location and condition.
- c) Cost of finished goods and work-in-process includes the cost of raw materials, packing materials, an appropriate share of fixed and variable production overheads, excise duty as applicable and other costs incurred in bringing the inventories to their present location and condition. Fixed production overheads are allocated on the basis of normal capacity of production facilities.

6. Investments

Long term investments are carried at cost. Provision for diminution in the value of long term investments is made only if such a decline is not temporary in the opinion of the management. Short term investments are carried at

lower of cost and fair value. The comparison of cost and fair value is done separately in respect of each category of investments.

Profit and loss on sale of investments is determined on a first in first out (FIFO) basis.

7. Revenue Recognition

Revenue is recognized only when there is no significant uncertainty as to the measurability / collectability of amount.

8. Transactions in Foreign Exchange

Transactions in foreign currency are recorded at the exchange rate prevailing on the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Profit and loss account of the year.

Monetary assets and liabilities denominated in foreign currencies, which are outstanding as at the year end are translated at the closing exchange rate and the resultant exchange differences are recognized in the Profit and loss account.

The premium or discount on forward exchange contracts is recognized over the period of the contracts in the profit and loss account.

9. Employee Benefits

(i) Short Term Employee Benefits:

All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits and they are recognized in the period in which the employee renders the related service. The Company recognises the undiscounted amount of short term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

(ii) Post-Employment Benefits:

(a) Defined contribution plans

Defined contribution plans are, Government administered Provident Fund Scheme and Government administered Pension Fund Scheme for all employees and Superannuation scheme for eligible employees. The Company's contribution to defined contribution plans are recognized in the profit and loss account in the financial year to which they relate.

The interest to the beneficiaries every year is being notified by the Government.

(b) Defined benefit plans

(i) Defined benefit gratuity plan

The Company operates a defined benefit gratuity plan for employees.

NOTES ON FINANCIAL STATEMENT FOR THE YEAR ENDED 31ST MARCH, 2013

The cost of providing defined benefits is determined using the Projected Unit Credit Method with actuarial valuations being carried out at each balance sheet date. Past service cost is recognized immediately to the extent that the benefits are already vested, else is amortised on a straight-line basis over the average period until the amended benefits become vested.

The defined benefit obligations recognized in the balance sheet represents the present value of the defined benefit obligation as adjusted for unrecognized actuarial gains and losses and unrecognized past service costs, and as reduced by the fair value of plan assets, if applicable. Any defined benefit asset (negative defined benefit obligations resulting from this calculation) is recognized representing the unrecognized past service cost plus the present value of available refunds and reductions in future contributions to the plan.

(iii) Other long term employee benefits

Entitlements to annual leave and sick leave are recognized when they accrue to employees. Sick leave can only be availed while annual leave can either be availed or encashed subject to a restriction on the maximum number of accumulation of leaves. The Company determines the liability for such accumulated leaves using the Projected Accrued Benefit Method with actuarial valuations being carried out at each balance sheet date.

10. Provision for Taxation

Income tax expense comprises of current tax (i.e. amount of tax for the period determined in accordance with the Income Tax Act, 1961), deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the period) and fringe benefit tax (computed in accordance with the relevant provisions of the Income tax Act, 1961).

The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognized using the tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax assets are recognized only to the extent there is reasonable certainty that the assets can be realised in future; however, where there is unabsorbed depreciation or carry forward loss under taxation laws, deferred tax assets are recognized only if there is a virtual certainty of realisation of such assets. Deferred tax assets are reviewed as at each balance sheet date to reassess realisation.

11. Provisions and Contingencies

The company creates a provision when there exists a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources is remote, no provision or disclosure is made.

12. Earnings per share

The basic and diluted earnings per share ("EPS") is computed by dividing the net profit after tax for the year by weighted average number of equity shares outstanding during the year.

13. Proposed Dividend

Dividend if any recommended by the Board of Directors is provided for in the accounts, pending approval at the Annual General Meeting.

INDEPENDENT AUDITOR'S REPORT

To the Members of MORARJEE TEXTILES LIMITED

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of MORARJEE TEXTILES LIMITED ("the Company") and its subsidiaries / joint venture (Refer Note no 40 to consolidated financial statements), which comprise the consolidated Balance Sheet as at 31st March 2013, the consolidated Statement of Profit and Loss and the consolidated Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

The Company's Management is responsible for the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Company in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

The consolidated financial statements have been prepared by the Company in accordance with the requirements of Accounting Standard (AS 21) on Consolidated Financial Statements and (AS 27) on Financial reporting of interests in Joint Ventures as prescribed by the Companies (Accounting Standard's) Rules, 2006.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with the ethical requirements and plan and

perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers the internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Qualified Opinion

On the basis of inquiries made under sub-section (1A) of Section 227 of The Companies Act, 1956, the Company has not accrued interest income on unsecured loan given to Integra Garments and Textiles Limited (Previously known as Five Star Mercantile Limited) - a company within the same management, amounting to ₹ 422 lacs for the year ended on 31st March 2013. The said loan is recovered in full during the year. (Refer note no. 43 in the consolidated financial statements). As a result of the same, the profit for the year ended on 31st March 2013 is lower by ₹ 422 lacs.

Qualified Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on the financial statements of the subsidiaries and joint ventures as noted below, the consolidated financial

statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India *except for non provision of interest income in the preceding paragraph:*

- (a) in the case of the consolidated Balance Sheet, of the state of affairs of the Company as at 31st March, 2013;

NOTES ON CONSOLIDATED FINANCIAL STATEMENT FOR THE YEAR ENDED 31ST MARCH, 2013

Note 1 : Accounting Policies

1. Basis of preparation of financial statement

(a) Basis of Accounting:

The financial statements have been prepared and presented under the historical cost convention on accrual basis of accounting to comply with the accounting standards prescribed in the Companies (Accounting Standards) Rules, 2006 and with the relevant provisions of the Companies Act, 1956.

(b) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles (GAAP) in India requires Management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent liabilities on the date of financial statements.

2. Fixed Assets

All the fixed assets are stated at historical cost. In respect of Assets acquired under new project/ expansion/ restructuring, interest cost on borrowings and other related expenses during trial runs and upto satisfactory commencement of commercial production have been capitalised to Plant & Machinery and any subsidy given for a specific asset is reduced from cost. The Accounting Standard -10 of the Institute of Chartered Accountants of India has been compiled with in this respect.

3. Depreciation

Depreciation has been provided on straight line method on all fixed assets except Leasehold land at the rates specified in Schedule XIV to the Companies Act, 1956. Premium on lease hold land is amortised over the period of lease. Intangible assets are amortised over their estimated useful life.

4. Lease Accounting

Lease rentals on assets taken on lease are recognized as expense in the statement of Profit and loss account on an accrual basis over the lease term.

5. Inventory

- a) Raw materials, work in progress, finished goods, packing materials, stores, spares, traded goods and consumables are carried at the lower of cost and net realisable value. The comparison of cost and net realisable value is made on an item-by-item basis. Damaged, unserviceable and inert stocks are suitably depreciated.
- b) In determining cost of raw materials, packing materials, traded goods, stores, spares and consumables, weighted average cost method is used. Cost of inventory comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventory to their present location and condition.
- c) Cost of finished goods and work-in-process includes the cost of raw materials, packing materials, an appropriate share of fixed and variable production overheads, excise duty as applicable and other costs incurred in bringing the inventories to their present location and condition. Fixed production overheads are allocated on the basis of normal capacity of production facilities.

6. Investments

Long term investments are carried at cost. Provision for diminution in the value of long term investments is made only if such a decline is not temporary in the opinion of the management. Short term investments are carried at lower of cost and fair value. The comparison of cost and fair value is done separately in respect of each category of investments.

Profit and loss on sale of investments is determined on a first in first out (FIFO) basis.

NOTES ON CONSOLIDATED FINANCIAL STATEMENT FOR THE YEAR ENDED 31ST MARCH, 2013

7. Revenue Recognition

Revenue is recognized only when there is no significant uncertainty as to the measurability / collectability of amount.

8. Transactions in Foreign Exchange

Transactions in foreign currency are recorded at the exchange rate prevailing on the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Profit and loss account of the year.

Monetary assets and liabilities denominated in foreign currencies, which are outstanding as at the year end are translated at the closing exchange rate and the resultant exchange differences are recognized in the Profit and loss account.

The premium or discount on forward exchange contracts is recognized over the period of the contracts in the profit and loss account.

9. Translation of foreign Currency Statements

In translation the financial statements of foreign entities for incorporation in the consolidated financial statements, the assets and liabilities are translated at the exchange rate prevailing at the balance sheet date of respective subsidiaries and income and expense items are translated at the average rates of exchange for the year. The resulting exchange differences are classified as foreign currency translation reserve.

10. Research and Development

The Revenue Expenditure on Research and Development is charged to Profit & Loss account.

11. Voluntary Retirement Scheme

In case of subsidiary compensation paid on voluntary retirement scheme has been deferred and one half has been charged to Profit and Loss account.

12. Employee Benefits

(i) Short Term Employee Benefits:

All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits and they are recognized in the period in which the employee renders the related service. The Company recognises the undiscounted amount of short term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

(ii) Post-Employment Benefits:

(a) Defined contribution plans

Defined contribution plans are, Government administered Provident Fund Scheme and Government administered Pension Fund Scheme for all employees and Superannuation scheme for eligible employees. The Company's contribution to defined contribution plans are recognized in the profit and loss account in the financial year to which they relate.

The interest to the beneficiaries every year is being notified by the Government.

(b) Defined benefit plans

(i) Defined benefit gratuity plan

The Company operates a defined benefit gratuity plan for employees.

NOTES ON CONSOLIDATED FINANCIAL STATEMENT FOR THE YEAR ENDED 31ST MARCH, 2013

The cost of providing defined benefits is determined using the Projected Unit Credit Method with actuarial valuations being carried out at each balance sheet date. Past service cost is recognized immediately to the extent that the benefits are already vested, else is amortised on a straight-line basis over the average period until the amended benefits become vested.

The defined benefit obligations recognized in the balance sheet represents the present value of the defined benefit obligation as adjusted for unrecognized actuarial gains and losses and unrecognized past service costs, and as reduced by the fair value of plan assets, if applicable. Any defined benefit asset (negative defined benefit obligations resulting from this calculation) is recognized representing the unrecognized past service cost plus the present value of available refunds and reductions in future contributions to the plan.

(iii) Other long term employee benefits

Entitlements to annual leave and sick leave are recognized when they accrue to employees. Sick leave can only be availed while annual leave can either be availed or encashed subject to a restriction on the maximum number of accumulation of leaves. The Company determines the liability for such accumulated leaves using the Projected Accrued Benefit Method with actuarial valuations being carried out at each balance sheet date

13. Goodwill

Goodwill is written off over a period of ten years.

14. Provision for Taxation

Income tax expense comprises of current tax (i.e. amount of tax for the period determined in accordance with the Income Tax Act, 1961), deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the period) and fringe benefit tax (computed in accordance with the relevant provisions of the Income tax Act, 1961).

The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognized using the tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax assets are recognized only to the extent there is reasonable certainty that the assets can be realised in future; however, where there is unabsorbed depreciation or carry forward loss under taxation laws, deferred tax assets are recognized only if there is a virtual certainty of realisation of such assets. Deferred tax assets are reviewed as at each balance sheet date to reassess realisation.

15. Provisions and Contingencies

The company creates a provision when there exists a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources is remote, no provision or disclosure is made.

16. Earnings per share

The basic and diluted earnings per share ("EPS") is computed by dividing the net profit after tax for the year by weighted average number of equity shares outstanding during the year.

17. Proposed Dividend

Dividend if any recommended by the Board of Directors is provided for in the accounts, pending approval at the Annual General Meeting.
